Morgan State University | Graduating in May 2026 | Bachelor of Science (BSc) in **Computer Science**
EXPERIENCE

IT SECURITY ANALYST INTERN

February 2023 to June 2023

Panthergon, LLC

- Implemented client security policies and activities for networks, systems and applications including Vulnerability Management, Incident Reporting, Mitigation, and Continuous Monitoring.
- Facilitated all Assessment and Authorization (A&A) phases and processes.
- Demonstrated ability to support the full life-cycle of the Assessment and Authorization process.
- Collaborated with other teams to fortify security measures for applications and systems.
- Assisted the policy and strategy team in conducting research and analysis on Cybersecurity and compliance to inform business decisions and promote innovation.

IT ASSISTANT

January 2024 to May 2024

Morgan State University Graves School of Business Management

- Provided technical support to faculty, staff, and students for computer-related issues, troubleshooting problems efficiently and ensuring timely resolutions.
- Managed the maintenance and upkeep of computer systems, including hardware and software installations, updates, and upgrades.

IDENTITY AND ACCESS MANAGEMENT INTERN

June 2024 to August 2024

Generational Technology Group

- Engaged in training on Privileged Access Management (PAM) to enhance security skills and practices.
- Analyzed the current threat landscape with a focus on Privileged Access and the concept of least privilege.
- Studied the CyberArk Blueprint for PAM Success to ensure effective implementation of PAM solutions.
- Explored CyberArk products for managing privileged accounts.

PEER TUTOR

July 2024 to Present

Morgan State University

- Facilitated personalized tutoring sessions for undergraduate students in Computer Science, Math, and Information Systems courses.
- Leveraged tailored lesson plans and effective teaching strategies to help students achieve notable grade improvements and increased comprehension.

PROJECTS

Web Developer, Uni-link Language Learning Platform(HTML, CSS)

April 2024

- Co-designed and developed the front-end of "Uni-link," a simple platform for learning Japanese, Mandarin, and Spanish, using HTML and CSS to create a responsive, user-friendly interface.
- Led Agile sprints in a collaborative team to deliver a functional, accessible template that sets the foundation for future content expansion and interactive learning tools.

<https://github.com/actw1811/Group-3-project-Uni-Link>

Sudoku Solver (Python)

October 2022

- Developed a Sudoku solver using a backtracking algorithm to solve puzzles efficiently
- Optimized the solver algorithm for speed and performance

<https://github.com/Ade2396/Sudoku-Solver>

SKILLS

Programming languages: Python-intermediate Java- beginner HTML- beginner

Tools & Frameworks: Edstem, GitHub, CSET (GRC), Nessus Vulnerability Scanner, Microsoft Office, Unity, Excel, Word, PowerPoint, MS Project, CSET/eMASS, Splunk, Active Directory, ServiceNow, Trend Micro, CyberArk Privileged Access Security (PAS)
